DHM-VIDEO/BROWN SOUND VIDEO SOUND INSTALLATION

Social media provides another way for your church to engage with your community outside of regular services. By posting updates, sharing photos and videos, and responding to comments and messages, your church can build a stronger sense of community and foster a deeper connection between members. As our world becomes more digital, churches must adapt to meet people where they are.

The impact of audio and visuals for worship services enhances the overall worship experience and engagement. Worship services become more immersive, accessible, and effective in conveying the religious message with high-quality audio and visual elements.

MORE INFORMATION

Does your company still need to upgrade its audio and visual systems? COVID raised awareness of the necessity for businesses to have various options in order to function in a remote setting. The younger generation spends nearly all of their waking hours using a mobile device. Social media is the most effective approach to interact and establish a connection with potential customers. A move into the tech sector is necessary to maintain current business. **GET IN TOUCH WITH US NOW TO ARRANGE YOUR CONSULTATION!**

We offer our clients cost-effective professional sound and video installation services. Every church is different, and every installation needs a consultation to go over your requirements. For live recording and virtual livestreaming, we provide professional PTZ camera systems. Specifically designed to fit your space, our top-tier, fully digital sound systems deliver a distinctive sound.

CUSTOMER TESTIMONIALS

"Darrin & Mike were absolutely amazing. From our very first consultation they stepped in and explained what would need to be done. The training provided us an easy way to teach our members without experience. **EVERYTHING LOOKS AMAZING!!!**" - John Walker

"**THANKYOU** for bringing us out of the stone ages! **OUR CHURCH WOULD HAVE DEFINITELY CLOSED** had it not been for Mike and Darrin getting us into the social media world allowing us to gain new members and tithing" - Amanda Pierce
